Jackie and Linda,

I assume we will get further guidance at some point.

But, before you forget, please make a note of how much time (perhaps by day?) you spent working on analysis for response to the Gold King Mine. Sometimes EPA will keep track of such.

David

Hi John. I don't have any more information than this email, but certainly agree with you that keeping track of your time is good. She says they'll share when they can, and both you and I are on this email so we can watch for it.

Mary,

We may need some guidance here re reporting time spent last week on the Gold King analyses.

Linda Phillips, Jackie Moya, Lynn Flowers and I all spent some time on this. I'm not sure about any others.

For me, I spent about 9 hours over two days; I have a pretty good idea what time was spent by me.

Likely a good bit more time for Linda and Lynn; I'm not sure about Jackie.

At this point I suppose we can wait for more info from Jamie, so just a head's up.

John

All,

We have received the attached information related to charging time, travel, and other expenses in relation to support for the Gold King Mine Response. As more information is available, we will share with ORD.

Thank you!

Jamie

Regional Comptrollers & Other Program Offices

Attached please find the instruction/guidance on how to ensure proper charging and tracking of payroll, contracts, and travel resources associated with the response to the Gold King Mine Release. While this may only currently affect some of you, I felt it would be prudent to share with all of you as some of your regional staff may be traveling to assist.

Please share with others as appropriate.

Thank you.
